

Orion Schoolguard

FEATURES

- All steel construction
- Contoured dual density premium foams
- Pitch centres of 690mm

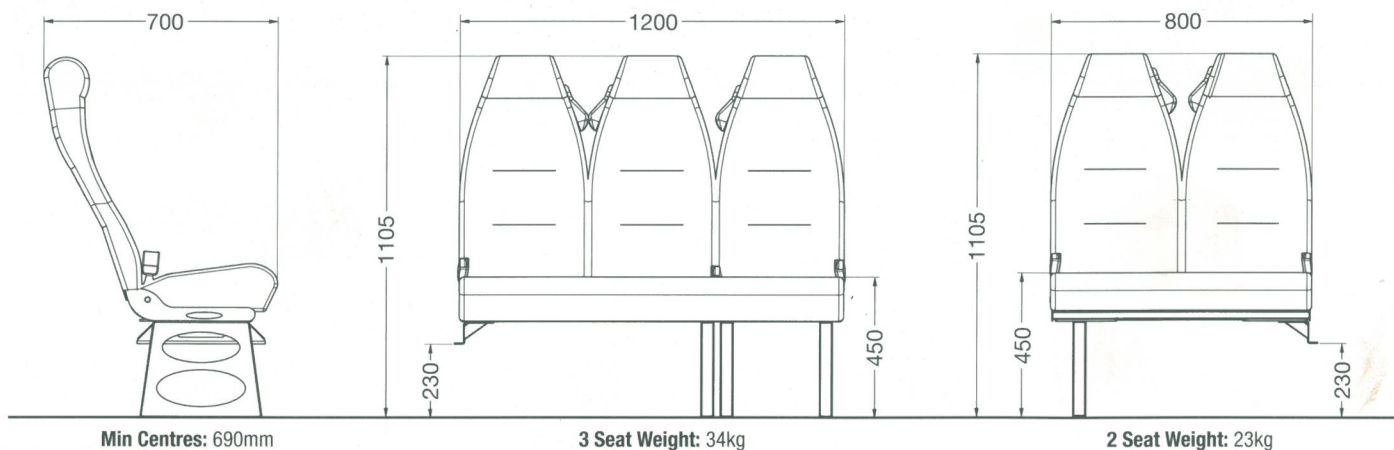

OPTION

- Aisle side handgrips

Suitable for any high capacity application, particularly school buses, the ORION SCHOOLGUARD is a true ADR 68 seat for all five across passengers irrespective of height or weight.

This advanced design offers benefits compared with the original SCHOOLGUARD series being lighter and more easily maintained with seatbelt retractors accessible in the shoulder zone of the seat back while the seat backs and cushions have been reshaped offering increased passenger comfort.

With our commitment to quality and comfort, the ORION SCHOOLGUARD seriously addresses the issue of school bus safety and capacity, e.g. 83 passengers in a 13.5 metre vehicle. **All this in a product which is genuinely ADR 68. Design Registered.**
